

## HKU BLOCKCHAIN & CRYPTO CLUB Decentralized Consensus

We're a student-run organization at HKU dedicated to serving the Hong Kong crypto and blockchain communities. Our mission is to promote cryptocurrencies and other applications of blockchain at HKU by facilitating education; encouraging collaboration and innovation within HKU and with stakeholders in the wider space; and exploring new applications of blockchain across industries.

We host a range of events and programs to promote blockchain, largely centered around education, research, and innovation.

### Research

Learn about  
ICOs and  
crypto-assets  
trading

### Conferences

Network with  
professors and  
industry experts

### Tutorials

Get educated on  
blockchain  
concepts

### Create

Work on  
blockchain  
projects

## WE ARE LOOKING FOR YOU

Are you someone who is already involved in all the crypto buzz? Or are simply interested in educating yourself about this growing field? Regardless of your knowledge, we want individuals who share the same passion as us about exploring the world of blockchain.

Join us as a MEMBER or become one of us by joining our TEAM.

# Available positions

Business managers play a key role on the Management & Operations team, which is responsible for planning, organizing and delivering business operations in the most efficient manner:

## Business Management

- **Marketing & Promotion:** Oversee the execution of marketing and advertising campaigns for various broadcast, digital and media outlets.
- **Public Relations:** Collaborate and build relationships with industry professionals, university professors, and other potential stakeholders
- **Operations** including planning, organizing, marketing, recruitment, etc

Research Analysts play a key role on the Market Research team, which is responsible for conducting detailed analysis of both blockchain industry and companies.

## Research

- Research Analysts play a key role on the Market Research team, which is responsible for conducting detailed analysis of both blockchain industry and companies.
- Conduct industry and company research
- Conduct ICO analysis on upcoming ICOs and prepare research reports
- Conduct research on existing tokens and coins and prepare buy/sell ratings

## Quantitative/Academic Research

Quantitative Researchers play a key role on the Quantitative Research ("QR") team, which is responsible for developing and testing trading strategies using established academic theory

- Read and analyse different academic papers
- Formulate academic research into workable trading strategies
- Portfolio Management

It doesn't matter what you're studying. But we'd like to see evidence that you:

- have an interest in blockchain technology and are passionate about our club's mission
- are entrepreneurial and ready to be responsible for a big change
- have a collaborative mindset and willing to work hard to see the team succeed
- are able to multitask
- are willing to self-learn

By joining us, you'll:

- learn about blockchain technology and crypto-assets
- get prepared for internships and full-time positions in blockchain industry
- get opportunities to connect with industry experts and rising companies
- get practical experience in a fun environment
- gain leadership experience

We value creativity and initiatives; opportunities for growth are endless, you just need to be willing to act on it!

You can also register as a member (access to our events and resources) if you cannot join our team. Interested students can apply here: <https://goo.gl/forms/4Q14RGv1GjUKbCb83> or reach out to us via email: [hkublockchainpress@gmail.com](mailto:hkublockchainpress@gmail.com)

We look forward to your applications and meeting you in our upcoming events!
