

Webinar: What is an inclusive digital learning environment and how Assistive Technology can help to achieve it by Microsoft Philanthropies HK

Many of us are using Office 365 daily. Do you know that, for instance, there is a live captioning function in the PowerPoint that can transcribe and display the text on screen as you speak? In this webinar, [Microsoft Philanthropies HK](#) will share with us their mission on how to empower everyone to be [future ready](#) and demonstrate the [accessibility tools](#) developed by Microsoft that could benefit all users, with or without a disability.

Guest Speakers: Microsoft Philanthropies HK

Date: 24 April 2020

Time: 3pm – 5pm

Language: English
