

## **Webinar: Introduction to the *Sonocent Audio Notetaker***

Notetaking is an integral part of learning and we all have different methods of recording important information. Some may prefer to write while others may prefer to audio record the lecture. [Sonocent Audio Notetaker is a learning tool that capture audio, notes and slides in a single workspace](#) with a robust tagging and categorization system so that you can mark and organize information for later retrieval. [This tool is useful for students with or without a disability](#). In this webinar, Sonocent Ltd will demonstrate the functionalities of the software. [Trial licenses \(limited availability\) will be offered to interested attendees.](#)
