Talk and Workshop on Embracing Diversity: *Through Different Eyes*

Have you ever imagined yourself with a different identity – with another skin and hair colour? Will your life be much different? Mr. Morten Nielsen, from a Danish theatre company, has developed a project 'Through Different Eyes' to challenge people's perception of identity, race and gender. He will share with us his experience of running the project and discuss issues related to discrimination, inclusion, empathy and inter-culture.

Talk

As a Danish actor, Morten has once played a Pakistani character. The physical change of his appearance has inspired strong reflections into his daily life. How did he develop this experience into 'Through Different Eyes'?
