International SOS is a worldwide medical and travel security services company, which offers local expertise, preventative advice and emergency assistance through their network of assistance centers, clinics and health and logistics providers.

The service provided by International SOS included the following:

**Assistance:**
International SOS provides Pre-travel advice to travellers, preparing them for a safe and healthy trip. They also provide medical and security assistance abroad with their worldwide network. They had also developed an assistance app for access to medical and security information, advice and assistance.

**Medical Services:**
International SOS medical services reduce the medical risk to employees where they work and travel, including medical staffing, occupational health, healthcare management services, medical supply chain, medical training and medical consultation services. They also provide medical and security information as well for their clients. International SOS also owned clinics which offers primary care, diagnostic care and 24/7 emergency care to their clients.

**Concierge and lifestyle Programmes:**
International SOS offers concierge and lifestyle assistance including travelling services like lost luggage and passport assistance, emergency document delivery, travelling insurance and roadside assistance including on-call advice, roadside repair, and towing and vehicle recovery services.

International SOS’s services lightened the burden for the organizers, especially in the cases of overseas exchange and internship programmes where overseas travelling is involved.
